PROFESSIONAL SUMMARY

Informatics student at Universitas Ahmad Dahlan with experience in web development, UI/UX design, Android development, AI/ML projects, and creative media production. Skilled in building responsive web interfaces, productivity-based web applications, and visual content for digital platforms. Interested in roles that combine software development, product design, and visual storytelling.

EDUCATION

Universitas Ahmad Dahlan

Bachelor of Informatics / Informatics Engineering | Aug 2023 - Expected Feb 2027 | Yogyakarta, Indonesia

Relevant focus: Software Engineering, Web Development, Android Development, UI/UX Design, Artificial Intelligence / Machine Learning, Creative Digital Media.

TECHNICAL SKILLS

Programming & Web	HTML, CSS, JavaScript, Python, Java, PHP, C++
Frontend & Product	Responsive Web Design, Dashboard UI, CRUD Application, Authentication Flow, Task Management System, Mobile-First Design
Mobile Development	Android Development, Android Java, Firebase
AI / Machine Learning	Python, TensorFlow, CNN, Computer Vision, Image Classification
UI/UX & Design	Figma, Wireframing, Prototyping, UI Design, Visual Layout
Creative Media	Videography, Director of Photography, Video Editing, Cinematic Direction, Color Grading, Visual Storytelling, Poster Design, Apparel Design
Tools & Platforms	GitHub, Netlify, Android Studio, Firebase, Figma, Canva, CapCut

PROJECTS

Planora - Personal Productivity Web App

Web Developer & UI Designer | 2026 | Live: planoratodo.netlify.app

- Developed a personal productivity web application for managing academic tasks, personal tasks, finance records, attendance tracking, reminders, and user profile data.
- Designed a dashboard-based interface with task summary, due date tracking, overdue status, monthly finance summary, attendance overview, and account profile section.
- Implemented user-facing flows including login, sign up, task creation, finance entry, attendance input, profile editing, notification control, manual reminders, and account deletion.
- Built the app with a mobile-first approach to support daily productivity workflows for students.

AI Painting Style Classification

Machine Learning Project | 2025

- Developed a CNN-based model to classify painting styles using visual art datasets.
- Applied Python, TensorFlow, CNN architecture, and computer vision concepts for image classification.
- Worked on model training workflow, image-based feature learning, and classification result evaluation.

Parking Management App

Android Developer | 2025

- Developed an Android-based parking management application for online parking slot booking.
- Designed core features including slot booking, parking availability monitoring, and payment flow.
- Used Android Java and Firebase to support mobile app functionality and data handling.

Laundry Website

Web Developer | 2024

- Built a responsive laundry booking website with a clean interface, booking form, and information pages.
- Implemented front-end structure using HTML, CSS, and JavaScript.

UI/UX Learning Path App

UI/UX Designer | 2025

- Designed a learning path application prototype for UI/UX education using Figma.
- Created wireframes, user flow, and high-fidelity interface design with clear navigation.

Trading Learning Tracker

Web Developer | 2025

- Built an interactive web application for tracking learning progress in Crypto and Forex trading.
- Developed learning modules, dynamic quiz features, and a trading journal using browser-based LocalStorage.

EXPERIENCE

Luxyer Studio

Founder & Creative Director | Jan 2026 - Present

- Founded a local apparel brand focused on clothing design, visual identity, and digital product presentation.
- Designed apparel concepts and brand visuals for product promotion.
- Built a web-based pre-order system from scratch using HTML, CSS, and JavaScript.
- Managed creative direction including product visuals, layout, and online presentation.

Campus Organization Production Team

Director of Photography & Video Editor | Project-Based, 2025

- Produced campus visual content as Director of Photography, cameraman, and video editor.
- Worked on video profiles, event teasers, event documentation, and organization poster designs.
- Handled production workflow from visual planning and shooting to editing and final rendering.
- Collaborated with team members to complete creative production within project deadlines.

AWARDS

Best Video Profile | DOP, Video Editor & Cameraman | 2025

- Contributed to the production of an award-winning campus organization video profile.
- Led visual capture, video editing, and final production workflow.

PORTFOLIO HIGHLIGHTS

Planora; AI Painting Style Classification; Parking Management App; Campus Organisation Video Profile; Luxyer Studio; UI/UX Learning Path App.
