A DEVELOPER WHO THINKS VISUALLY.

I combine software development, UI/UX thinking, and cinematic direction to create digital products and visual content with clear function, strong structure, and intentional presentation.

PROFILE

I work at the intersection of code, interface, and visual storytelling. As an Informatics student, developer, and creative media practitioner, I build digital products while bringing a visual director's perspective into every project.

My work ranges from productivity web apps, Android systems, and AI/ML projects to cinematic videos, brand visuals, apparel concepts, and UI/UX prototypes. I focus on creating digital experiences that are functional, visually clear, and structured around real user needs.

CORE IDENTITY

BUILD	DESIGN	DIRECT
Web App Android App AI/ML Project Dashboard UI Productivity System	UI/UX Interface Visual Layout Brand Visual Prototype Apparel Design	Videography Director of Photography Video Editing Cinematic Storytelling Color & Composition

FEATURED WORKS

01 Planora

Personal Productivity Web App / Web Development / Dashboard UI

A personal productivity web app designed to help students organize tasks, finance records, attendance, reminders, notifications, and profile data in one clean dashboard-based system.

Web App	Dashboard	Task Mgmt	Finance
Attendance	Reminder	Profile	Mobile-first

02 AI Painting Style Classification

AI/ML / Python / TensorFlow / CNN

A computer vision project built to classify painting styles using CNN workflow and visual art datasets. The project shows technical exploration in model training, image processing, and classification.

Python	TensorFlow	CNN	Computer Vision
Image Classification	ML Workflow	Dataset	Evaluation

03 Campus Organisation Video Profile

Videography / DOP / Editing / Storytelling

A campus organization video profile produced with focus on visual direction, camera work, editing, storytelling, and final production quality.

DOP	Editing	Camera	Storytelling
Scriptwriting	Music	Visual Direction	Teamwork

FEATURED WORKS

04 Parking Management App

Android Development / Mobile App / Firebase

An Android-based parking management app designed to support online parking slot booking, availability monitoring, and payment flow.

Android	Java	Firebase	Mobile App
Booking	Payment Flow	UI Flow	System Design

05 Luxyer Studio

Local Apparel Brand / Creative Direction / Web Pre-Order

A local clothing brand project combining apparel design, visual branding, and a web-based pre-order system built using HTML, CSS, and JavaScript.

Brand	Apparel	HTML	CSS
JavaScript	Pre-order	Visual Identity	Direction

EXPERIENCE

Luxyer Studio

Founder & Creative Director
Jan 2026 - Present

Founded and directed a local apparel brand with a focus on clothing design, visual branding, and digital presentation. Built a web-based pre-order system using HTML, CSS, and JavaScript to support product ordering and brand visibility.

Campus Organization Production Team

Director of Photography & Video
Editor
Project-Based, 2025

Handled video production as Director of Photography, cameraman, and editor for campus organization content. Produced video profiles, event teasers, event documentation, and poster designs while maintaining consistent visual quality from planning to final render.

EDUCATION

Universitas Ahmad Dahlan

Bachelor of Informatics / Informatics Engineering / 2023 - Expected 2027 / Yogyakarta

Focus areas: Software Engineering, Web Development, Android Development, UI/UX Design, AI / Machine Learning, and Creative Digital Media.

Informatics	Software	Web Dev	Android
UI/UX	AI/ML	Creative Media	UAD

SKILLS

TECHNICAL	HTML, CSS, JavaScript, Python, Java, PHP, C++, Android Development, Firebase, TensorFlow, CNN, Computer Vision, Responsive Web Design, Dashboard UI, CRUD Application
CREATIVE	Videography, Director of Photography, Video Editing, Cinematic Direction, Visual Storytelling, Color Grading, Composition, Poster Design, Apparel Design, Brand Direction
TOOLS	Figma, Canva, CapCut, Android Studio, GitHub, Netlify, Firebase
PROFESSIONAL	Project Management, Team Collaboration, Creative Problem Solving, Communication, Adaptability, Time Management, Detail-Oriented Execution

AWARD

Best Video Profile

DOP, Video Editor & Cameraman / 2025

Contributed to an award-winning campus organization video profile by handling visual direction, camera work, editing workflow, and final production quality.

DOP	Editing	Visual Direction	Campus
Video Profile	Teamwork	Production	Final Render

SELECTED PROJECT CATEGORIES

DEVELOPMENT	Planora, AI Painting Style Classification, Parking Management App, Laundry Website, Trading Learning Tracker
DESIGN	UI/UX Learning Path App, Organisation Poster Design, T-Shirt Design
CREATIVE MEDIA	Campus Organisation Video Profile, Brand Clothing Teaser, Campus Event Videography

I build digital products with a visual storyteller's eye: clean interfaces, structured systems, and intentional visuals.
